

4.4.2. Mounting the battery pack to a wall

The eFlex 5.4 can be easily wall-mounted using our custom T-slot brackets. The wall-mounting brackets are sold separately. Please ensure the wall and mounting hardware can handle the weight of the batteries.

1. Line up the top bracket on the wall.
 - a. Mark the desired placement using a level to ensure the bracket is horizontal
 - b. Affix the mounting bracket into the wall
2. Using the T-slot screws, fix the male brackets onto the slots in the battery
3. Once all brackets are properly positioned, carefully lift the battery with the help of someone and gently drop it into the female wall mounted brackets
