

4.4.2. Mounting the battery pack to a wall

The eFlex 5.4 can be easily wall-mounted using our custom T-slot brackets. The wall-mounting brackets are sold separately. Please ensure the wall and mounting hardware can handle the weight of the batteries.

- 1. Line up the top bracket on the wall.
 - Mark the desired placement using a level to ensure the bracket is horizontal
 - b. Affix the mounting bracket into the wall
- 2. Using the T-slot screws, fix the male brackets onto the slots in the battery
- Once all brackets are properly positioned, carefully lift the battery with the help of someone and gently drop it into the female wall mounted brackets
